

## Service and commissioning engineer

in the field of combustion technology (m/f/d)

---

**CS Combustion Solutions** is one of the leading specialists in the field of industrial combustion. We are a young, dynamic company based in Vienna. Our main business is the development, production and commissioning of burners and combustion chambers for the thermal afterburning of liquid and gaseous products, as well as the production and treatment of sulphuric acid. We plan and implement individual solutions for industrial applications for international customers.

**Would you like to become part of the team and work on individual solutions for international customers in the field of combustion technology and thus drive forward the energy transition, among other things?**

We are looking for a new employee to join our team in Vienna as of now:

**Service and commissioning engineer** (m/f/d)

### **Our requirements:**

- Completed technical education in the field of plant / mechanical engineering, electrical engineering / mechatronics
- Professional and plant experience is an advantage, but we are also happy to recruit young, motivated candidates
- High willingness to travel internationally, alternating with repetitive office work
- High degree of personal responsibility, reliability and diligence
- Dedication and organizational skills
- Perfect German and very good written and spoken English skills

### **Your responsibilities:**

- Supervision and execution of international service and commissioning activities
- Inspection, maintenance and optimization of industrial burners and firing systems
- Carrying out plant acceptance tests directly at the customer's premises (SAT)
- Carrying out factory acceptance tests (FAT) in production
- Independent resource and travel planning
- Supporting the after sales department
- Know-how transfer from the plant/customer to the team

### **What we offer:**

- A secure long-term job in a successful, economically stable organization
- A challenging, varied job with a high level of personal responsibility and individual development opportunities
- A young, dynamic team with flat hierarchies
- Flexible working hours with the option of working from home
- Smartphone & notebook, also for private use
- Meal allowance ("Schränkerl") at the office facilities

If you would like to become part of our team, we look forward to getting to know you personally. Please send your complete application documents by e-mail to Ms. Landbauer at: [landbauer@comb-sol.com](mailto:landbauer@comb-sol.com)
